For the Base

1. Begin with a 10" x 10" piece of your favorite card stock and have a pencil ready. (Be sure to erase any pencil lines that show on your finished project)

2. At the top of one side, measure to the 5" mark and draw a vertical line about 2" down.
3. Measure and draw a line 10" from each bottom corner to the center line that you just drew to form a triangle.
4. On each side of the triangle, measure and mark at 5". Connect the three marks that you just made to form the inner triangle (first valley fold).
5. From those three same marks, measure and mark $1\frac{3}{4}$ " on both sides of each mark. Connect the measured marks to give you your second fold (a peak fold).
6. Cut out the triangle using your paper trimmer and score the six inner lines that you made for your folds to form your card base.

Make the layers

The small triangle layers are made using the same technique for the large triangle.

1. **For the inner triangle** - On a $4\frac{3}{4}$ " x $4\frac{3}{4}$ " piece of Very Vanilla card stock, measure to the $2\frac{7}{8}$ " mark and draw a vertical line about 1" down.
2. Measure and draw a line $4\frac{3}{4}$ " from each bottom corner to the center line that you just drew to form a triangle.
3. Cut out the triangle, stamp your sentiment on it, and adhere it to the center of the card using Stampin' SEAL.

4. **For the three triangle points - (Layer 1)** On a 3" x 3" piece of your choice of card stock, measure to the $\frac{1}{2}$ " mark and draw a vertical line about 1" down.
5. Measure and draw a line 3" from each bottom corner to the center line that you just drew to form a triangle.
6. Cut and adhere the triangle to the card using Stampin' SEAL. Repeat for all points.

(Layer 2)

1. On a $2\frac{3}{4}$ " piece of Brightly Gleaming Specialty designer series paper (DSP), measure to the $1\frac{7}{8}$ " mark

and draw a vertical line about 1" down.

2. Measure and draw a line 2 ¾" from each bottom corner to the center line that you just drew to form a triangle.
3. Cut and adhere the triangle to the card using Stampin' SEAL. Repeat for all points.

For the middle layers

The middle layers are to be done on both the inside and outside of the card. Doing the outside ensures that all five points are decorated when the card is folded.

1. Cut a 1 1/4" x 5" piece of Very Vanilla card stock and lay it on to the card (do not adhere). Using a ruler, draw a diagonal line on the ends, 1/8" away from the outer edge of the card, trim, then adhere to the card. Repeat 5 more times. (3 are for the backside)
2. For the second layer, cut a 1 x 4 ½" piece of Brushed Metallic Foil paper and lay it on to the card (again, do not adhere). Using a ruler, draw a diagonal line on the ends, 1/8" away from the edge of the first layer, cut, then adhere to the card. Repeat 5 more times.

Decorate

1. Using the Layering Circles dies, crop two pieces of card stock. One in your color choice with the 5th largest scallop circle and one in Very Vanilla with the 6th largest circle.
2. Stamp your sentiment on to the Very Vanilla circle using a matching ink and adhere it to the scallop circle.
3. Adhere the sentiment to the lower half of top triangle, being sure to only put adhesive on the top left corner. The right corner needs to remain unglued to fold it up.
4. Crop the snowflakes in Brushed Metallic Foil paper with the Christmas Layers dies using your Stampin' Cut & Emboss machine.
5. Adhere the snowflakes to the sentiment and add the Holiday Rhinestone Gems to the centers as shown.

To fold the card

1. Fold the right side in first.
2. Fold the left side in on top of the right.
3. Fold the top down, while simultaneously lifting the right side to tuck the right side under the sentiment.

**This card will fit perfectly in a 6" x 6" square envelope but will require extra postage.
